# Partition Extender / PE-CROWN-X
Clip installation for domed partition
Installation Instructions

ghent
a GMi company

Step 1: Unpack the Plastic clip and set next to the Assembled clamp, Acrylic panel, and Hardware.

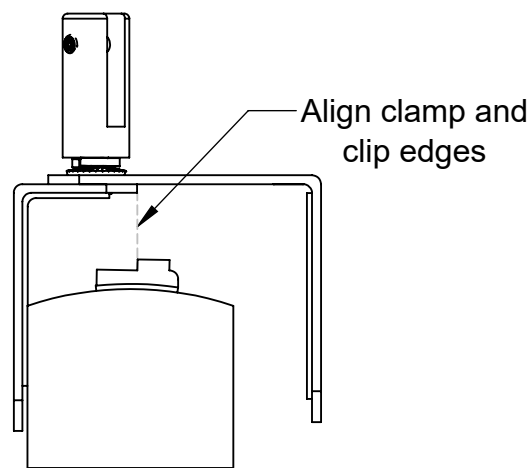

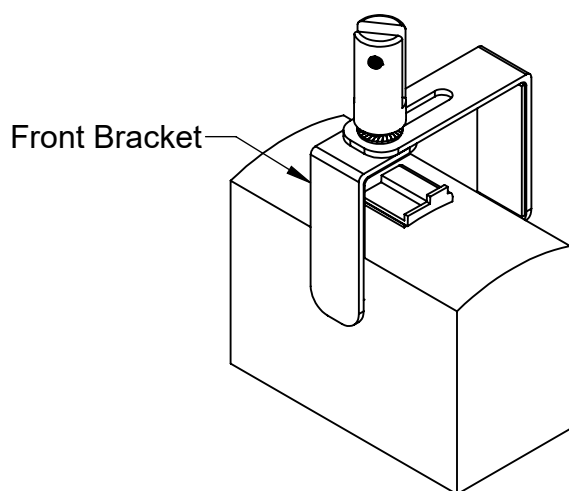

Plastic clip with
foam tape

Note: Custom sizes with panel width larger than 72" will require 4 plastic clips. Standard sizes with panel width larger than 48" will require 3 plastic clips, all smaller sizes will require 2 plastic clips. Refer to IS-PE-A for panel installation instructions.

Step 2: Place the Plastic clip onto the center of the domed partition as shown.

Step 3: Lower the clamp onto the plastic clip as shown. Rest the front bracket onto the lower step of the plastic clip. Adjust clip placement as needed.

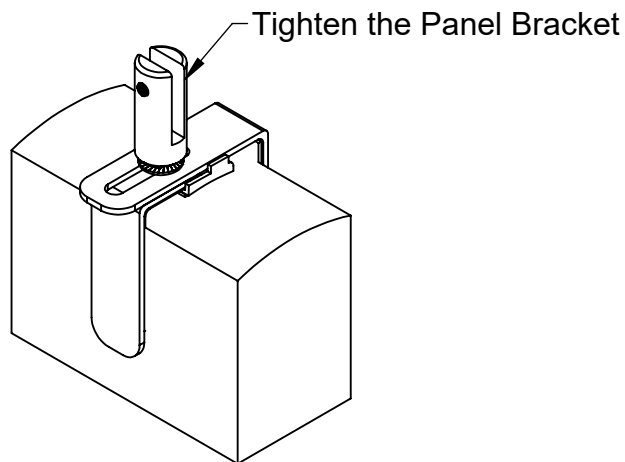

Front Bracket

Align clamp and
clip edges
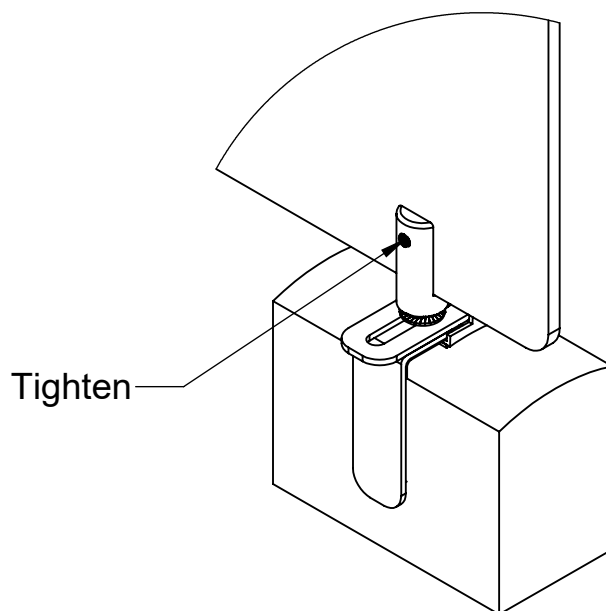

Step 4: Pinch both sides of the clamp on to the partition walls. Then tighten the panel bracket until the channel is aligned with the partition as shown.

Tighten the Panel Bracket

Step 5: Slide the acrylic panel into the panel bracket. Secure the panel by tightening the set screw in the panel bracket with the provided Allen wrench.

Tighten

Step 6: Recycle all packaging in accordance to local regulations.
