Prest Wall Glassboard shown in Terra with Driftwood Frame

Surface Ideas & Collaboration

The modern office is constantly changing, office products of today need to be sleek and well-integrated. The Ghent line of wall-mounted and mobile glassboards are created to supply everything the office of today needs for clear, collaborative communication.

Aesthetics

Choose from expertly-selected standard colors in the Ghent Color Library or select from PMS colors to match any aesthetic. Select a pattern or logo to make glassboards more unique.

Sustainability

Ghent products are made using eco-friendly processes and materials to minimize our impact on the environment. Ghent is the only manufacturer in the industry to produce BIFMA LEVEL 2® certified glassboards.

Uniqueness

Glassboards are available in landscape, portrait, square and unique shapes such as hexagonal and circular. Sizes range from 18" to 10' depending on the product and shape selected.

Cleanable

Easy-to-clean glassboards are resistant to ghosting and staining and are designed for easy care and maintenance. You can rest assured your board will look as great as the first day it was installed.

Function with Style

Ghent's elegant, intentional glassboards are built to last. With warranties ranging from 10 to 50 years, the glassboards will not ghost, stain, or fade over time. Communicate ideas then wipe them away with ease leaving the board in its original pristine condition.

Shapes

Our glassboards are made to fit any space. Choose from rectangular, circular, or hexagonal shapes.

Styles

Whether in a designated space or on the go, capture ideas on wall-mounted or mobile glassboards.

Customization

Every glassboard can be painted using Ghent's Standard Color Library or select a custom color to make more unique.

- Frame Options
- Steel

Stroll
Sleek and contemporary glass mobile with a powder coated frame.

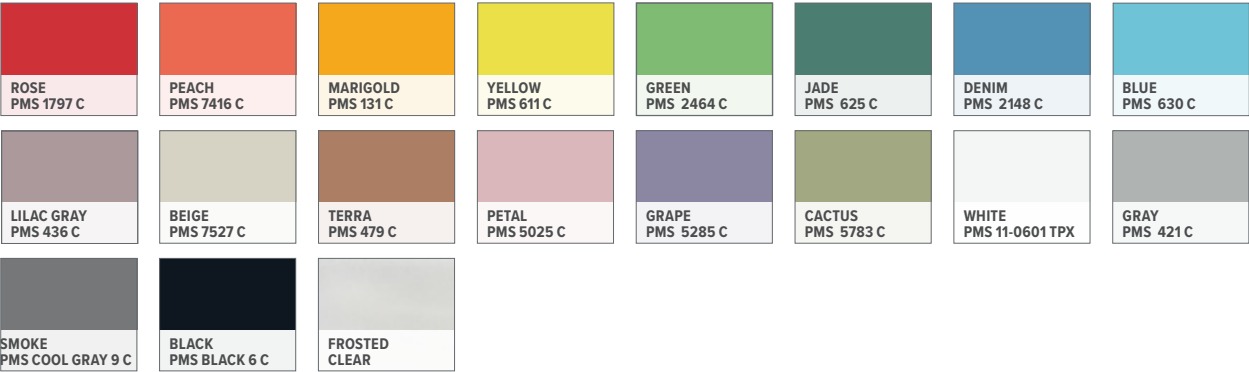

- Frame Options
- Carmel Oak
 - Driftwood Oak
 - Natural Oak

Prest Mobile
Glassboard, fabric, and whiteboard options combined with an industrial frame.

The Ghent Color Library

Working with an experienced color expert, we’ve curated a perfect selection of standard colors based on aesthetics and writeability.*

Make It Yours

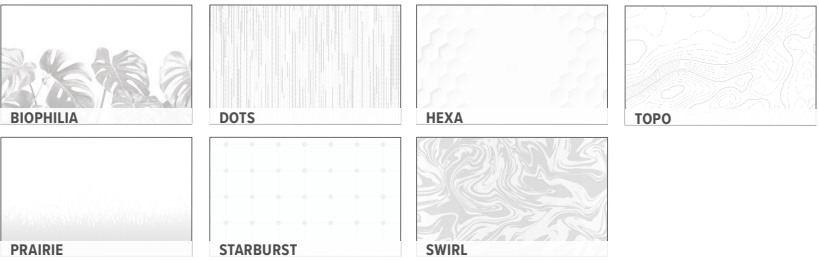

Looking for something unique? Our color expert hand selected these additional colors for their appeal, writeability, and popularity. Additionally, our color-matching technology allows for specifications to Pantone, RMS and Sherwin Williams when there is a need beyond our standard offering.*

* Due to printing and screen variations the PMS color swatches shown above may not accurately represent the true color.

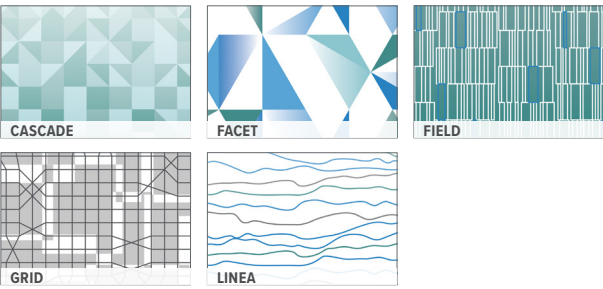

Pattern Glass

Pattern Glass is the next evolution of visual communication. These 7 patterns draw extra attention to your message while your board is in use and transform your board into a graphic art piece when it is not. Inspired by nature, these designs are available on Aria and Harmony glass boards and were chosen to promote feelings of comfort, inspiration, and nostalgia.

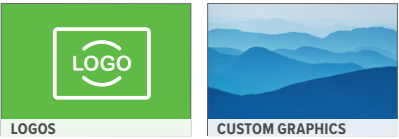

Glass Print Options

Our Pointe Mobile Glassboards & Partitions offer printed glass to add a unique style to your space.

Custom Graphics

Incorporate company branding into your space by taking your Ghent products to the next level with custom graphics, color-matching services, and configuration capabilities.

Leave a Cleaner Mark

For over 40 years, we have been committed to reducing our carbon footprint and making our communities cleaner and stronger.

Making Progress

We are 100% committed to responsible manufacturing. 95% of our products are Made in the USA, allowing us to control the entire product process from sourcing to assembling. We work continuously to reduce manufacturing wastes through lean initiatives and work to ensure the scrap that is products is recycled.

Certifications & Partnerships

We are dedicated to crafting products with intention, which is why we are the only company on the market with LEVEL 2® Certified Glassboards. We've partnered with Ecomedes to provide quick and easy access to explore all certification data.

Sustainability Measures

- Water-based paints are used on all glassboards
- Custom colors are mixed on demand to avoid waste
- All glassboards are end of life recyclable
Scrap material is recycled when possible
- Made in the USA - products are sourced and assembled with best possible practices
